Reviews by app and stars

What the reviews say

- **Telda** gives the best experience (3.92★, 22% one-star) but fell from 4.09 to 3.72 in six months.
- **valU** is declining fastest (2.80 → 2.09). InstaPay is the only app improving (3.44 → 3.55).
- "The app doesn't work" is the **#1 complaint**: 28% of 1★ reviews, 51% of InstaPay's negative reviews.
- 6.6% of 4–5★ written reviews describe a problem: star ratings hide them.

"The app doesn't work" is in 28% of 1★ reviews

How to read this page Each cell is the share of an app's negative (1–2★) reviews with 3+ words that mention the topic. A review can mention several topics, so columns don't add up to 100%. Topics come from Arabic, English and Franco keyword rules (src/topics.py); about 30% of negative reviews are general complaints with no specific topic. Other topics (abroad, security, design, missing features) are each under 3% of negative reviews

App

InstaPay | Fawry | Telda | valU | Vodafone Cash

Summary

Best experience: Telda (3.92★) but slipping. **Most negative: Vodafone Cash wallet** (69% one-star). **Fastest decline**: valU (2.80 → 2.09 in six months). **Only app improving: InstaPay** (3.44 → 3.55). The common fix: stable releases. Three of six complaint surges came right after an update that broke the app.

14 recommendations, each tied to a number

App	Priority	Recommendation	Evidence
Fawry	3	Keep investing in customer service: it is improving but still the top complaint.	Customer service is in 34% of negative reviews overall, down from 29% to 17% in the last six months compared with the six before.
InstaPay	3	When the security check blocks a phone, say which app or setting caused it.	Security-block and unsupported-phone complaints ('this app is hooked') are in 3% of negative reviews, and users say they can't tell what to remove.
Telda	3	Investigate why ratings are slipping before it becomes a trend.	Average rating fell from 4.09 to 3.72 and the 1-star share rose from 17% to 26% (last six months vs the six before).
valU	3	Stop the decline: fix app stability and make fees and interest clear before purchase.	Average rating fell from 2.80 to 2.09 in the last six months; 'app won't open' rose from 10% to 23% of negative reviews; fees and interest 7%, fraud accusations 9%.
Fawry	2	Show the status of every failed payment or ATM withdrawal in the app, with an automatic refund date.	Failed or stuck transactions are in 10% of Fawry's negative reviews (bill payments, recharges, Fawry card at ATMs), the highest of all five apps.
InstaPay	2	Make sign-up work without SMS problems: an in-app OTP option, clearer errors, and support for users abroad.	Sign-up / SMS verification is in 18% of negative reviews; 'not working from abroad' in 3%.
Telda	2	Answer negative reviews and support chats faster	Telda replies to only 19% of negative reviews, and customer-service complaints rose from 21% to 26% in the
